THE HIVE

Museum of the Home is a place to discover and celebrate, reveal and rethink home together. Set in 300-year-old Grade I listed almshouses and surrounded by verdant gardens and London Plane trees, the Museum is a hidden oasis within the City.

Following recent development and funding, our lower concourse of the Museum has seen some exciting renovations. The Hive offers three fully equipped spaces that fuse heritage and contemporary functionality, a modern creative hub, for collaborative work, a flexible space where ideas flourish.
